

## Clean Waters IPA

**ABV 4.7% IBU 50**

Our session IPA is brewed with a complex array of malts and hops. Pilsner malt, caramalts, melanoidin, and mild malts add subtle flavors, while oats give a balanced mouthfeel and body. Simcoe and Amarillo hops dominate the aroma and flavor, which pair smoothly with the oats and malts backbone to deliver a full-flavored sessionable beer great for many leisure activities. A portion of the proceeds from this beer will directly benefit conservation of Indiana waterways. Northeast Indiana Water Trails is our local beneficiary of Clean Waters IPA.
